Detailed Rationale

Crisil Ratings has assigned its **'Crisil AA/Stable'** rating to Rs.2000 crore non convertible debentures of IIFL Finance Ltd (IIFL Finance) and has reaffirmed its 'Crisil AA/Crisil AA-/Crisil PPMLD AA/Stable/Crisil A1+' ratings on the bank facilities and existing debt instruments.

Crisil Ratings has also **withdrawn** its ratings on non convertible debentures aggregating Rs.800 crore (See 'Annexure - Details of Rating Withdrawn' for details) on receipt of requisite documentation for redemption and at client's request. The withdrawal is in line with the Crisil Ratings' policy on withdrawal of ratings.

The ratings continue to be supported by the group's comfortable capitalization, and its established track record of operations and extensive branch network. These strengths are partly offset by profitability, where improvement track record is to be demonstrated, and limited diversity in the resource profile, with moderately higher cost of funds vis-à-vis some of the peers.

IIFL Finance group's consolidated assets under management (AUM) stood at Rs 98,336 crore as on December 31, 2025, with gold loans accounting for 44%. The group has been able to rescale its gold loans portfolio post the lifting of the embargo on the gold loans business in September 2024. Housing finance and microfinance, which form 32% and 9%, respectively as on December 31, 2025, are carried out via subsidiaries, IIFL Home Finance Ltd (IIFL Home) and IIFL Samasta Finance Ltd (IIFL Samasta).

In terms of the earnings profile, the group reported return on assets (RoA) and managed assets (RoMA) of 2.1% and 1.5%, respectively, for first nine months of fiscal 2026, vis-à-vis 0.9% and 0.4%, respectively, in fiscal 2025. The earnings in fiscal 2025 was impacted due to 100% provision of an AIF investments - an exceptional loss (Rs 587 crore) in fiscal 2025, lower net interest margins (NIMs; total net interest income/average managed assets) and increase in credit cost (provisions and write-offs/average managed assets). However, earnings improved during first nine months of fiscal 2026 backed by better net income (total income net of interest/ average managed assets; supported by healthy growth in gold loan portfolio) inspite of credit costs remaining inched up on account of asset quality issues in segments like micro loan against property (LAP), lower ticket size unsecured business loans and microfinance. A large portion of credit cost impact from these segments has been taken via accelerated write-offs and sale to asset reconstruction companies (ARC) and hence, the ability of the group to stabilize credit costs and in turn demonstrate improving trajectory in profitability will be a key monitorable.

The group has earlier demonstrated its ability to raise capital from long-term marquee investors, such as Fairfax, the CDC group and Abu Dhabi Investment Authority (ADIA). However, the resource profile is marked by limited diversity and higher cost of borrowings, compared with peers. Ability to diversify the funding profile at an optimal cost as the business scales up will be monitored closely.

The rating on the perpetual bonds reflects the extent of buffer over the regulatory capital adequacy requirements. Crisil Ratings believes that it will maintain this cushion going forward.

Analytical Approach

Crisil Ratings has consolidated the business and financial risk profiles of IIFL Finance and its subsidiaries, including IIFL Home and IIFL Samasta. This is because all the companies, collectively referred to as the IIFL Finance group, have significant operational, financial and managerial integration, and operate under a common brand.

Key Rating Drivers - Strengths

Comfortable capitalisation, supported by demonstrated ability to raise capital and an asset-light business model

The group has demonstrated its ability to raise capital from long-term marquee investors, such as Fairfax and the CDC group in the past. IIFL Finance raised Rs 1,272 crore via rights issue in May 2024. The consolidated networth stood at Rs 15,152 crore with adjusted gearing of 5.5 times as on December 31, 2025. Networth coverage for net non-performing assets (NPAs) was comfortable at 32 times as on same date. Given the capital infusion and the asset-light business model, capitalisation should remain comfortable over the medium term.

IIFL Finance reported a standalone networth and gearing of Rs. 7,066 crore and 4.8 times, respectively as on December 31, 2025, Tier I capital adequacy ratio (CAR) and overall CAR stood at 12.8% and 18.9%, respectively, as on the same date. Networth coverage for net NPAs was around 31 times as on same date.

IIFL Home had networth and gearing of Rs 8,016 crore and 2.5 times as on December 31, 2025, and Tier I and overall CAR of 45.3% and 47.7%, respectively, and networth coverage for net NPAs of around 54 times as on same date.

On the same date, IIFL Samasta reported networth and gearing of Rs 1,864 crore and 3.7 times, respectively. Tier I and overall CAR on the same date were 23.1% and 30.0%, respectively.

Established track record of operations and extensive branch network

Consolidated AUM witnessed a year-till-date growth of 26% in the first nine months of fiscal 2026 and stood at Rs 98,336 crore as compared to Rs 78,341 crore on March 31, 2025. The growth in the portfolio was underpinned by the substantial scale up in the gold loan segment, which grew from Rs 10,797 crore as on September 30, 2024 to Rs 43,432 crore as on December 31, 2025, after seeing a decline from Rs 23,354 crore as on March 31, 2024.

Majority of the book has been deployed in retail asset classes. Two lending subsidiaries, IIFL Home and IIFL Samasta, are engaged in mortgage finance and microfinance, respectively. In the affordable housing space, the group extends loans of average ticket size of Rs 20 lakhs and within this sub-segment, it is a prominent player. Retail loans (ticket size less than Rs 1 crore) accounted for 98% of the consolidated AUM as on December 31, 2025, making the portfolio highly granular. As on December 31, 2025, the group was present across five key segments: gold loans (44% of the AUM), home loans (32%), LAP (9%), unsecured business and personal loans (4%) and microfinance (9%), which together accounted for 98% of the AUM, up from 67% as on March 31, 2017. In light of recent asset quality challenges, the group has taken a strategic decision to discontinue its unsecured digital loan (lower ticket size personal and business loans) and micro LAP products.

Apart from these, there are two non-core, but synergistic segments: construction and real estate (CRE) funding and capital market lending. The group has been consciously scaling down its book under these segments, which together formed only 2% of the AUM as on December 31, 2025. Under CRE, the group finances completion of projects already funded by it and is also looking at providing smaller ticket affordable construction finance through IIFL Home, as it will be synergistic to its core business. In the capital market segment, the group finances retail clients of IIFL Capital Services Ltd.

Market position benefits from a wide network of 4,761 branches as on December 31, 2025, which allows the group to cross-sell financial products of other IIFL entities.

On a standalone level, IIFL Finance had an AUM of Rs 49,027 crore as on December 31, 2025 (Rs 27,508 crore as on March 31, 2025) primarily comprising gold loans (89%), unsecured loans (8%), LAP (2%) and capital markets (1%). IIFL Home had an AUM of Rs 39,628 crore on the same date (Rs 39,732 crore as on March 31, 2025), comprising home loans (80%), followed by LAP (18%) and construction finance (2%). IIFL Samasta had an AUM of Rs 9,681 crore as on December 31, 2025, which is entirely microfinance (Rs 11,101 crore as on March 31, 2025).

Key Rating Drivers - Weaknesses

Improvement in profitability to be demonstrated; ability to reduce credit costs remains monitorable

The group reported consolidated net profit of Rs 578 crore in the fiscal 2025 as against Rs 1,974 crore in fiscal 2024. Consolidated RoA and RoMA were at 0.9% and 0.6%, respectively in fiscal 2025 as compared to 3.4% and 2.3%, respectively, for fiscal 2024. The profitability in fiscal 2025 was impacted due to 100% provision made for an AIF investment - an exceptional loss (Rs 587 crore), lower net income and increase in credit costs. For the first nine months of fiscal 2026, consolidated RoA and RoMA improved to 2.1% and 1.5%, respectively. This was supported by improvement in net income to 7.2% in first nine months of fiscal 2026 vis-à-vis 6.2% during fiscal 2025.

However, credit costs remained elevated at 1.8% for nine months of fiscal 2026 (1.6% for fiscal 2025). This was driven by asset quality challenges in segments like micro LAP, lower ticket size unsecured business loans and microfinance, which led to the group doing accelerated write-offs and sale to ARCs, along with higher provisioning requirements. Provision coverage ratio, on consolidated basis, stood at 53% as on December 31, 2025. The ability of the group to stabilize credit costs hereon and thus continue improving trend in overall profitability will remain a key monitorable.

On consolidated and standalone basis, gross NPAs (GNPAs) of IIFL Finance stood at 2.2% and 1.9%, respectively, as on March 31, 2025 (2.3% and 3.7%, respectively, as on March 31, 2024). This further improved to GNPA of 1.6% and 1.5%, respectively, on consolidated and standalone basis, as on December 31, 2025. However, the improvement has been supported by write-offs and sale to ARCs. GNPA for the group on consolidated basis including past 12 months of write-offs stood at 5.0% as on December 31, 2025. Further, as on same date, IIFL Finance, on a standalone basis had investments in security receipts (SRs) aggregating to Rs 3070 crore. The ability of the company to redeem these SRs in a timely manner will need to be monitored.

IIFL Home reported a GNPA of 0.9% as on December 31, 2025, as against 1.8% as on March 31, 2025 (1.5% as on March 31, 2024). The GNPA for the company saw an improvement following the sale of loans aggregating to Rs 1612 crore to ARCs during the nine months ended December 31, 2025. IIFL Samasta reported GNPAs of 4.8% as on December 31, 2025, as against 4.7% as on March 31, 2025 (3.4% as on March 31, 2024). The GNPA remained elevated owing to industry wide asset quality issues in the microfinance segment.

Going ahead, the ability of the group to keep delinquencies under check and in turn manage credit cost will remain critical for improving trend in profitability to continue and thus remain monitorable.

Limited diversity in resource profile with comparatively higher cost of funds; ability to diversify the borrowing base while reducing cost of funds monitorable

IIFL Finance, on consolidate basis, had total outstanding borrowings of Rs 60,640 crore as on December 31, 2025. Banks and financial institutions (FIs) constituted 59% of the on-book borrowings of the group-these were primarily in the form of term loans (35%), refinance (9%), short-term borrowings (1%), external commercial borrowings (7%) and securitisation (7%). The remaining 41% of borrowings were in the form of non-convertible debentures (22%), external commercial borrowings from DFIs (9%) and commercial paper (10%). Of this, capital market lenders (such as mutual funds, pension funds, trusts) had limited share. IIFL Finance group has been able to tap the public NCDs route. However, the overall cost of funds at 9.7% for nine months ended December 31, 2025 remains higher than some of the comparable peers. Nevertheless, the recent borrowings have been at better rates, and the overall cost of funds should start seeing a decrease over the next few quarters.

Over the medium to long term, ability to diversify the resource base at an optimal cost will be a monitorable, given the relatively higher reliance on banks and FIs.

Liquidity Strong

As on February 28, 2026, the IIFL Finance group had liquidity of Rs 3,396 crore (Rs 3,239 crore of cash and cash equivalents and Rs 157 crore of unutilised cash credit limit). In addition, the group had unutilised lines of Rs. 3,507 crore as on same date. The same provided 1.1 times cover over the next 1 months of debt obligations for the group. All the three group companies reported positive cumulative mismatches upto one year bucket as per the ALM statements dated December 31, 2025.

ESG Profile

Crisil Ratings believes that the ESG profile of the IIFL Finance group supports its credit risk profile.

The ESG profile of financial institutions typically factors in governance as a key differentiator. The sector has reasonable social impact because of its substantial employee and customer base, and its role in promoting financial inclusion. While there is no direct adverse impact on the environment, lending decisions could have a bearing on environmental and other sustainability related factors.

The IIFL Finance group has demonstrated an ongoing focus on strengthening various aspects of its ESG profile.

Key ESG highlights of the IIFL Finance group

IIFL Finance has replaced incandescent lights with light-emitting diode panels across branches. Rainwater harvesting systems have been installed and wastewater is treated and re-used for domestic purposes.

Of the total workforce at IIFL Finance, gender diversity stands at 27%, as on March 31, 2025. One of the nine board members is a woman.

Of the board members, 56% are independent directors and there is a split between positions of the chairman and MD. Extensive investor grievance redressal disclosures and mechanism are in place.

There is growing importance of ESG among investors and lenders. The group’s commitment to ESG will play a key role in enhancing stakeholder confidence, given the substantial share of foreign investors as well as access to domestic capital market

Outlook Stable

IIFL Finance group is likely to maintain adequate capitalisation and diversified product offerings in the retail segment.
